### Public Forum

What streetscape improvements do you want for  
Main Street, Florence Village?

**Wednesday January 6, 2021 5:30 PM**

Over the past two years we have had several forums and conversations on Florence Center streetscapes and regulations.

The Mayor and City Council have allocated some funds to support streetscape improvements recommended by this process.

#### We heard a desire for:

- more street trees
- improved pedestrian warning at Main St./Keyes St. and Meadow St./Park St.
- street furnishings (e.g., benches, newspaper boxes)
- wayfinding signage
- improved street lighting
- improved accessibility for people with disabilities

We also heard a variety of more dramatic changes (curb extensions, traffic flow changes), although no clear consensus.

We have nearly completed the first phase of the project, surveying Main Street to identify opportunities for improvements.

**NOW it is your turn again. Help us prioritize improvements.**
