Memorandum

To: Donna LaScaleia, Director of Public Works *Approved M 4-1-2021*
From: David Veleta, City Engineer
Date: March 31, 2021
Re: Council Order 21.197 – Petition for Installation and Maintenance of Underground Conduit and Manholes No. 23303524 – Damon Road Reconstruction Project MassDOT No. 608236 – Damon Road

I have reviewed Department of Public Works (DPW) records and submittals including images, sketches and reconstruction plans for MassDOT Damon Road project No. 608236. This petition with a revised plan dated March 24, 2021, includes the proposed construction of a line of underground electric conduits and manholes, including the necessary sustaining and protecting features, under and across the public ways or ways, by National Grid, referenced in City Council Order 21.197.

The installation is proposed to be located beginning at a point approximately 178 feet northeast of the centerline of the intersection of Industrial Drive and Damon Road and continuing in a northeast direction. National Grid proposes to install Manhole 1 with approximately 20 feet of four 5-inch, future use conduit to the northwest, approximately 45 feet of two 5-inch conduit to pole P7-25, approximately 377 feet of six 5-inch conduit from Manhole 1 to Manhole 2, approximately 37 feet of two 5 inch conduit from Manhole 2 to P7-50, and approximately 20 feet of four 5-inch, future use conduit to the northeast from Manhole 2, as shown on the attached plan dated March 24, 2021.

No potential conflicts were observed, but the contractor shall use caution when excavating since the exact location of the existing sewer force main is unknown.

A trench permit approved by the DPW has already been issued for the Damon Road project to Gagliarducci Construction who will be installing the manholes and conduit under contract with MassDOT. This permit will be revised to reflect the specifics of the above work upon approval of this petition by Council.

Re: Council Order 21.238 – Petition for Joint Ownership Pole Install No. 23303524 – Damon Road Reconstruction Project MassDOT No. 608236 – Damon Road

Approved 4-27-21 M

I have reviewed Department of Public Works (DPW) records and submittals including images, sketches and reconstruction plans for MassDOT Damon Road project No. 608236. This petition includes the proposed installation of one (1) joint ownership (JO) pole shared between National Grid and Verizon, referenced in City Council Order 21.238.

One (1) pole on Damon Road, numbered 9-50, is proposed. This pole is to be located at a point approximately 154 easterly of the intersection of River Run and Damon Road as shown in the application sketch and provides intermediate support for overhead wires spanning between existing poles.

The proposed pole is located within the existing roadway pavement and shall not be placed until the new, relocated curbing associated with the project is installed. The pole shall be placed with a minimum 1.5' horizontal offset between the face of the new curb and the face of the pole. A minimum 3' clearance between the back of the pole and the back of the new sidewalk is necessary to meet minimum ADA compliance. The sketch shows a proposed guy wire to the north, which must not interfere with the required ADA sidewalk clearance. The pole shall be placed with a minimum five-foot horizontal offset from the existing water service line for 104 Damon Road.

A valid trench permit approved by the DPW is required before work at this location commences.

From: Kris Baker, P.E., Civil Engineer
Date: April 26, 2021
Re: Petition for Joint or Identical Pole Locations No. 30025210

National Grid is proposing to install two (2) Jointly Owned Poles on Burts Pit Road: one approximately 1,023 feet east from the centerline of the intersection with Woods Road, and one approximately 229 feet east from that pole, as staked. A site visit was conducted on April 26, 2021 with the developer and a National Grid representative to discuss the proposed work as well as to determine the field location of the proposed poles in relation to the existing water and sewer stubs to the properties. The existing water valves and sewer cleanouts were field located and marked by the Water Division and the Sewer & Drain Division, respectively.

The proposed location of pole #72-50 is six (6) feet from the existing water service line. The proposed location of pole #71-50 is five (5) feet from the existing water service line. The poles are located more than five (5) feet from existing sewer service lines and more than ten (10) feet from the existing water main, drain pipes, sewer main, and manhole structures. The poles should therefore be set at the staked locations and there will be no utility conflicts.

There are no trees in the vicinity of the proposed poles and no apparent interference of trees with proposed overhead wires.

A valid "Excavation/Trench Permit" issued by the DPW is required prior to construction.

WHEREAS, the City of Northampton awarded a contract for the aforementioned two-phase study to Design Nine, Inc. which has completed a market study, the overwhelmingly positive results of which dictate moving forward with the comprehensive feasibility study; and

WHEREAS, the City Council approved the establishment of a Municipal Light Plan in fiscal year 2020 on June 18, 2020; and

WHEREAS, in the interest of not unnecessarily delaying a future potential municipal broadband project, it would be prudent to complete the second required approval vote in fiscal year 2021 ending June 30, 2021.

NOW, THEREFORE, be it ordered, the City Council authorizes in accordance with the provisions of Chapter 164 of the General Laws and in accordance with the rules, regulations and orders of the Department of Public Utilities and the Department of Telecommunications & Cable, a municipal lighting plant for all purposes allowable under the laws of the Commonwealth, and more particularly for the establishment a municipal broadband system for the City of Northampton.
