DEPARTMENT OF BUILDING INSPECTIONS
212 Main Street • Municipal Building
Northampton, MA 01060

APPLICATION FOR DEMOLITION PERMIT

Attached are the forms required for a Demolition permit. Please fill out all of the attached forms and submit them to the Building Department with the appropriate fee. Please make checks out to the City of Northampton. (Cash not accepted)

Please be advised that disconnect signatures from the following departments must be submitted with the application:

1. Eversource (Gas division)
2. National Grid (Electric division)
3. Northampton Department of Public Works - Water
4. Northampton Department of Public Works – Sewer
5. Northampton Department of Public Works – Storm water Management
6. Northampton Department of Public Works – Tree Warden
7. Northampton Historical Commission Review (if built prior to 1945)

*Proof of extermination is required to be submitted to the Health Department for all Commercial demolitions and all abandoned residential properties. (Extermination may be required at the Health Inspector's discretion if evidence of rodents exists).

Other required documents:

- Massachusetts Construction Supervisors License
- Copy of Workers Comp Affidavit
- Asbestos abatement report

A Demolition Permit will not be issued, and no demolition is to commence until **ALL** required documents are submitted to the Building Department.

For further questions or information, please contact this department @ (413) 587-1240

ASBESTOS REMOVAL

All residential, commercial and institutional buildings are subject to Massachusetts Department of Environmental Protection (MassDEP) asbestos regulations at 310 CMR 7.15. Therefore, owners and/or operators (e.g. building owners, renovation and demolition contractors, plumbing and heating contractors, flooring contractors, etc.) need to determine all asbestos containing materials (ACMs), both friable and non-friable, that are present at the site, and whether or not those materials will be impacted by the proposed work, ***prior*** to conducting any renovation or demolition activity.

Examples of commonly found ACMs include, but are not limited to, heating system insulation, floor tile and vinyl sheet flooring, mastics, wallboard, joint compound, decorative plasters, window glazing, asbestos containing siding and roofing materials and fireproofing materials.

Failure to identify and remove all ACMs prior to its being impacted by renovation or demolition activities, can result in significant penalty exposure, and higher clean-up, decontamination, disposal and monitoring costs.

A DOS certified asbestos consultant must be contracted to determine if asbestos is present and whether removal/repair is necessary. If the building is a state owned facility, contact DCAM and DOS. DOS provides a list of licensed asbestos abatement contractors and consultants. You may wish to inquire if a contractor has any history of violations. Only DoS licensed and DOS certified asbestos abatement contractors and consultants may be hired to perform asbestos related work in Massachusetts.
