All data are drawn from MAVEN and MDPH reporting. Presented data assumes that data sources are current and accurate as of the date they are reported. Case counts include probable cases (antigen and antibody tests) and confirmed cases (PCR and RT-PCR tests).

*Active cases are cases with reported positive results, who are currently in isolation under public health supervision.

**Partially vaccinated individuals have received 1+ doses of COVID-19 vaccine, but have either not received their final dose or have received their final dose less than 14 days ago. Fully vaccinated individuals have received their final dose of the COVID-19 vaccine at least 14 days ago.
